SEWELL TO REOPEN HIS TENNESSEE DIVORCE CASE

Believes He Can Prove that Decree Was Legally Granted.

Following the charge made by Jones & McCormick, attorneys for Barton Sewell, Vice-President of the American Smelting and Refining Company, that the suit filed by his former wife attacking the validity of her divorce was a fraud, the divorce was reopened in Tennessee.

It is said that Mr. Sewell desires to have the case finally settled and that he prefers having the whole matter thrust out. In doing this Mr. Sewell will escape further annoyance, he believes. He is of the opinion, as are his attorneys, that evidence will be laid before the Court which will show that the first divorce was granted legally.

Mrs. Sewell's suit attacking the validity of the Tennessee divorce will come before Referee Arrington Carman of Patchogue, in the office of Attorney Early, No. 271 Broadway, on Sept. 11. The referee must decide if the case is to be opened, but in the meantime Mrs. Sewell has brought a similar suit in the Tennessee courts.

In her charges against Mr. Sewell, Mrs. Sewell says that the suit for divorce was filed in Tennessee when she was abroad and without her knowledge. Mr. Sewell, through his attorneys, says that Mrs. Sewell went to Europe to escape service of papers in the legal action.

Although Mrs. Sewell has been represented by nine different firms of lawyers since the litigation began, and although these lawyers are some of them fighting to see just who in her legal representative, it was said to-day that an entirely new firm of lawyers had been engaged to take up the cudgels for her.

FIGHTS HUSBAND FOR HER LIFE IN GAS-FILLED ROOM

Man Accused of Trying to Compel Wife to Die with Him.

It is given to few women to have the experience undergone by Mrs. Frank Hentchall and then live to tell about it. For ten minutes the woman says her husband held her in his arms, stifling her cries and fighting against her release, while from the gas jets in the room poured forth a stream of the deadly fluid that he had planned would end their lives.

"Ten minutes and we both will be through with the troubles of this life," she says he uttered to her many times as the fumes filled the room that had been closed by him.

Mrs. Hentchall says her husband held her in a vice while she was rapidly losing her senses. Finally, as her brain was reeling, she made one desperate struggle and tossed her husband from her and reached the door and gained her freedom and life.

Her husband followed, staggering after her and would have dragged her back, she says, had not a man, protected her and called the police. Hentchall then gained the room and threw himself upon the bed. There he was found and arrested by the police and lodged in the Fourth Precinct Police Station.

The couple have one child and live at No. 156 Barclay street, Newark. The wife says the husband made his attempt to kill her after a quarrel over a trivial matter. The charge against him is assault with intent to kill.

GOLDIE MOHR WILL ACCEPT ONE-FOURTH

She May Get \$750,000, Plus Riverside Drive House, in Lieu of Dower.

That Mrs. Goldie Mohr Wood has agreed to accept one-fourth of her late husband's \$3,000,000 estate, plus the palatial home at No. 14 Riverside Drive, which he gave his children, in lieu of her widow's dower is a report to-day that followed the meeting yesterday between Henry M. Cullin, Mrs. Wood's attorney, and Morgan & Seabury, of No. 230 Broadway, counsel for the executors of the Wood estate.

Many conferences have been held between the attorneys, but it was only yesterday, according to report, that there was reached an amicable basis for an agreement that would keep a contest for the estate out of the law courts.

If Mrs. Wood accepts the proffered compromise of one-fourth, with the Riverside Drive mansion, she will get very nearly all she demands, as the Riverside property is now worth \$100,000 and in a few years will greatly increase in value.

Mrs. Wood has returned to her apartment in the Barmard and will remain in the city until her husband's will is probated and the settlement of the estate proceeds.

Mrs. Sarah Mohr, the young woman's mother, who lives at Cambridge Springs, Pa., has given out an interview in which she asserts that her daughter never was a chorus girl, though she had been with some theatrical companies. Mrs. Mohr added that when Mr. Wood

avowed his love for her daughter, Goldie gave up her theatrical profession and devoted her entire time to domestic life.

"For a year and a half before her marriage," said Mrs. Mohr, "she was on the stage and has not been since."
